		- 2 -	25X1/
25X1A	2.	Comment. The Ministry of the Interior includes two differentses the so-called Interior Administration headed by State Secreta and the Ministry for the National Forces. Both branches are headed Minister Willi Stoph, whose main task is the organization of the farmy.	ry Groetschel
25X1A	3.	Comment. Information on an aeronautical research institute transmitted previously in Pirna. . There were sindications of an airfield allegedly projected on Ruegen; however, have remained unsubstantiated. Efforts have been initiated to obtain on submarine training of the Sea Police in Sassnitz and the taking former German submarines from the Soviets. These statements possibly correct. An airfield of the naval air force was formerly warnemuende. It appears doubtful that the activation of flying unitsea Police has actually been commenced. Premnitz is the winter standard Mecz Regt of the Eggesin Mecz Div. This is the first report on of an ammunition plant. The Central Tank Repair Shop of the KVP and ammunition depot are located at Kluess near Guestrow.	they in information over of located in ts by the tion of the
